(TMI Focus, Vol. XIV, No. 1, Fall 1992)

QUARTERLY TAPE

Healing Myself

The quarterly tape tells a story of extraordinary courage.

When Gari Carter was tragically injured in a car crash, her life virtually ended.

Through a series of painful surgeries, and with the help of Hemi-Sync®, her physical body was gradually reconstructed. Simultaneously, a new identity was forged as well. This quarter's member tape features Gari reading excerpts from her autobiography, *Healing Myself*, a testimony to the power of the human spirit.
